Sections:	
1- Overview	Page 2
2- How to Complete the Management Cost (Category Z) Workbook	Page 5
3- How to Create & Submit for Management Costs in Grants Portal	Page 18

#### **Overview**

Management costs are indirect costs, administrative expenses, and other expenses an Applicant incurs in administering and managing Public Assistance (PA) grants and, awards not directly chargeable to a specific project.

Examples include, but are not limited to:

- PA Management
- Meetings regarding the PA Program or overall damage claim
- Reading, writing, reviewing, and/or collecting correspondence relating to Public Assistance
- Formulating projects and narratives, gathering documents, and hiring contractors to perform PA project related activities
- Activities related to ineligible projects are not eligible
- Excess management costs funding may not be retained as reimbursement is capped at 5%

#### Federal Cost:

- FEMA provides contributions for management costs that an Applicant incurs in administering and managing PA program.
- Up to 5% of the sum of all applicant's obligated projects (Categories A G) are eligible for 100% reimbursement from FEMA
- FEMA makes final determination on eligible and reasonable costs.

This Guidance is for the following Disaster:

#### 1. DR-4505 / COVID-19 / January 20, 2020 - May 11, 2023\*

\*FEMA proposed COVID -19 Period of Performance end date

#### **Eligible Activities**

Include activities related to developing and managing the PA program on all eligible and obligated PA projects. These activities may include, but are not limited to:

- Preliminary Damage Assessments
- Meetings / technical assistance regarding the PA Program or PA damage claim
- Organizing PA damage sites into logical groups

- Preparing correspondences
- Site inspections
- Travel expenses related to the PA program
- Developing the detailed site-specific damage description
- Evaluating Section 406 hazard mitigation measures
- Preparing Small and Large Projects
- Creating and uploading documents into Grants Portal
- Formulating and reviewing Project Worksheet's
- Collecting, copying, filing, or submitting documents to support a claim
- Requesting disbursement of PA funds

#### **NON-Eligible Activities**

#### Activities that cannot be claimed under management costs.

Example of activities that are directly related to a project (Categories A – G) but <u>not</u> eligible under management costs (Category Z) include:

- Architectural, engineering, financial management, and design services are project costs and cannot be included under management costs
- Similarly, construction management activities that manage, coordinate, and supervise the construction process from project scoping to project completion are project costs

#### **Documentation Requirements**

In accordance with the Code of Federal Regulations Title 2 Part 200: Uniform Administration Requirements (2 CFR 220), the initial application for management costs must:

- Include a description of activities, personnel requirements, and other costs
  - The documentation in a management costs application will be used by FEMA to determine if costs are reasonable and will support necessary management activities throughout the period of performance.

Actual cost documentation must include information necessary to demonstrate eligibility of costs and activities claimed as management costs:

- a) Payroll data, procurement procedures, contracts, invoices, proof of payments, management cost workbook, and a narrative of the activities and duties performed.
- b) Documentation must also include information to demonstrate that costs are reasonable. FEMA's established procedures for evaluating reasonable costs are described in FEMA's Public Assistance Reasonable Cost Evaluation Job Aid found here: <u>Microsoft Word - Public Assistance Reasonable Cost Evaluation Job Aid (RFO) (fema.gov)</u>
- c) FEMA makes the final decision regarding all eligibility determinations under the PA Program including the determination of cost reasonableness.

#### How to complete the Management Cost (Category Z) Workbook

The purpose of this workbook is to help organize your expenses and help you create a Management Costs (Category Z) project in Grants Portal. This workbook has formulas to help tabulate all your different expenses. The workbook has 6 functional tabs and 2 informational tabs (Management Summary & Help).

- **RED** tab will have the disaster details which will populate all the header in the remaining tabs.
- **GRAY** tab is the Management Cost Summary which will automatically be filled in as you complete each blue tab. Please <u>do not</u> modify or type on this sheet.
- Blue tabs will contain all the management costs related to this event. These tabs represent a different category of expenses. Please only fill out the white cells on each sheet.
- Orange tab is the user guide to fill out this workbook.

#### **Fill Out First**

Go to the 'Fill Out First' tab in the worksheet and complete the 'Disaster Details' information.

(Please only fill out the white cells, See below)
